- March 15th Marie C. @ 2:30pm

Events

- Mondays & Fridays Bingo
- Bingo Store Open 1-2pm on the 15th
- Catholic Mass & Communion
Every other Sunday

Resident of the Month: Rosemarie Tedesco

Rosie was born on January 22, 1943, in Detroit. She was the youngest of 7 siblings, so she received plenty of attention and still has an easy time striking up a conversation with anyone she meets. Being the youngest of a large and extended Italian family, instilled in her the importance of standing up for yourself, which Rosie carries with her today. She advocates for others and encourages people to stand up for themselves. Over the years, she made great friends who could count on her for sound advice and always a good laugh. Along with a desire to look out for others, she is also an avid animal lover.

Rosie has always been creative and has built skills in various crafts, including crochet, paper-tole, and ceramics. She always manages to take her craft projects to the next level and is always willing to teach and share the fruits of her creativity with everyone.

She married her beloved husband, Tony, and they were married 58 years before his passing last year. Rosie's family was her top priority, raising three children. Early on, the family moved from Warren MI, to Windsor, Ontario, Canada, where they took part in a family-owned Italian restaurant and farm. Rosie made the desserts for the restaurant and managed the farm for a time. The farm was a far cry from her life in the Detroit

suburbs. Starting early in the morning, she milked cows and goats and cared for chickens, rabbits, and pigs, to name a few. Ask her about her pet calf Cesar, who used to follow her around the farm like a puppy! Rosie was a hit with school groups that visited the farm. Once Tony retired, they moved to a cabin in the North Michigan woods on the AuSable river. They called it their "Little Piece of Heaven." They enjoyed the slower pace of life in the beautiful surroundings.

Rosie continues to enjoy life's simple pleasures and maintains a great sense of humor. She has a strong devotion to her Catholic faith. And along with her faith, she has two grandchildren and ten great-grandchildren, who are the joy of her life. She cherishes time with family and friends and loves to reminisce.

Rosie can be a force, but at her core, she is a kind, creative soul who touches the lives of everyone she meets. She feels so lucky to be part of the MDI community, and we hope her story has inspired and made it comfortable for you to say "Hello" the next time you see Rosie! She'll be happy to tell you more and share a laugh!

Congratulations Rosemarie!

Associate of the Month: Terri Simons

Terri is a true asset to MDI, she is compassionate to our residents and goes above and beyond for them on a daily basis. She is also an exceptional team player; always helping anywhere that she is need it. Terri is always trying to make sure our residents are happy! Keep up the great work Terri. We are truly blessed to have you on our team.

TRIVIA & FACTS

- ♣ Daylight Savings Time begins in March, blessing us all with an extra hour of daylight after months of long, long nights and short, short days.
- ♣ And then, of course, there's St Patrick's Day, which falls on the 17th of March. St Patrick's Day was first recognized as an official feast day in the 17th century. Today it serves as a celebration of Irish history and culture.
- ♣ The birth flower of March is the daffodil. Daffodils are synonymous with spring and new beginnings.
The gifting of a daffodil is said to be one of the purest expressions of love.
- ♣ The world's first telephone was patented on the 7th of March, 1876, by Alexander Graham Bell. He made the first phone call only three days later to his assistant, uttering the first phrase ever transmitted via telephone: "Mr. Watson, come here. I want to see you."
 - ♣ March 1933 marked the invention of family favorite board game Monopoly.
- ♣ Coca-Cola was invented by John Pemberton in the March of 1886. It was initially intended to be a patent medicine – heavily advertised, over-the-counter products with dubious medical uses. After Pemberton's product was bought out by a savvy businessman, it grew to become the soft drinks juggernaut it is today.
